J. F. HOLMES, Esq.
SIR:—I have examined the GUARDIAN LIGHTNING ROD AND POINTS, constructed of Galvanized Iron with spiral twist, copper couplings and gilded points and consider it to be constructed on scientific principles, and to afford efficient protection against damage by lightning.
Yours, respectfully,
JOHN H. APPLETON,
Professor of Chemistry.
In all, with three or four exceptions, old rods were removed which were found to be in the worst possible condition, defective at the joints and badly eaten up with rust.
Parties who desire to have their Rods examined by leaving their orders at the Office of STEWART'S STABLES, Pelham street, or with S. T. HUBBARD, Grocer, foot of Washington Square, will be promptly attended to free of charge by the undersigned, Agent of the Guardian Lightning Rod Co.

They can; and the Seltzer Aperient, when undoubtedly pure and genuine, proves the fact.

All necessity of a journey to Washington to procure a Patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS,
"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse.
CHARLES MASON, Commissioner of Patents."
"I have no hesitation in assuring inventors that they cannot employ a man more competent and trustworthy and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."
"Mr. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part, leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.

Sailor Bill's Yarn.

Say, Johnie, come here to Sailor Bill,
Come sit upon my knee;
I'll spin ye a yarn 'bout a little boy
That once belonged to me;
He was just of a size with you, he was,
His eyes were just as blue;
He smiled the same sorter smile, he did,
And was jest as sassy, too.

Why do I cry, d'ye say? Wal, at times,
When I think o' little Jim,
The tear will come, though it ain't because
That I'm a frettin' for him:
For, Johnnie, he's gone to a better place
Than the world in which we are,
And not to be cap of the Spanking Sue
Would I hev him back from thar.

But da—I mean I ain't telled yer
Nothin about it at all;
Wal, then, what I'm goin' to say took place
Sometime in last year's fall,
When the Spanking Sue'd concluded to wait
For a time in Naples Bay,
And me'n some mates had gone ashore
To spend our chink an' the day.

A rousin' time we had of it thar;
We gamed, and danced and swore,
An' kicked up a drunken row thar, too,
And—wal, I remember no more;
But jest comin to in my bulk at night,
With an orful pain in my head,
And, as I looked up, I seed a sight
As filled me all over with dread.

For, Johnnie, I see'd my Jimmie thar;
He was rigged up all in white;
He looked a look that was awful sad,
Then vanished from my sight.
Next mornin' my mates, when they heard
the tale,
Tried to larf it from my head,
But still I felt bad as bad could be,
For I knew my Jim was dead.

In a month I war back to my native town,
An' larn't that it was too true;
He died on the night that he'd come to me,
On the very same hour, too.
Ah, Johnnie, you smile, but why shouldn't
He
Who shed for us his blood,
Let poor little Jim come to warn his dad,
When it done such heaps o' good.

Since then I ain't jined a game o' cards,
Nor teched a drop o' rum,
And—darn it—I've tried to stop cussing,
But the cuss will sometimes come.
An' when the body o' Sailor Bill
Lies rottin' in the grave,
I know that Jimmy will see the dad
Whose soul he helped to save.

$500 WILL BE FORFEITED BY DR. L. DIX if failing to cure in less time than any other physician, more effectually and permanently, with less restraint from occupation or fear of exposure to all weather, with safe and pleasant medicines.
SELF-ABUSE AND SOLITARY HABITS,
Their effects and consequences;

SECRET AND DELICATE DISORDERS;
Mercurial Affections, Eruptions and all Diseases of the Skin; Ulcers of the Nose, Throat and Body; Pimples on the Face; Swellings of the Joints; Nervousness; Constitutional and other Weaknesses in Youth, and the more advanced, at all ages, of
BOTH SEXES, SINGLE OR MARRIED.
DR. L. DIX'S
PRIVATE MEDICAL OFFICE,
No. 21 Endicott Street, Boston, Mass.,
is so arranged that patients never see or hear each other. Recollect the ONLY entrance to his Office is No. 21, having no connection with his residence, consequently no family interruption, so that on no account can any person hesitate applying at his office.
DR. DIX
boldly asserts (and it cannot be contradicted except by Quacks, who will do or say anything, even perjure themselves, to impose upon patients) that he
is the only regular graduate physician advertising in Boston.
TWENTY YEARS
engaged in treatment of Special Diseases, a fact so well known to many Citizens, Publishers, Merchants, Hotel Proprietors, &c., that he is much recommended, and particularly to
Strangers and Travelers.
To avoid and escape imposition of Foreign and Native Quacks, more numerous in Boston than other large cities.
DR. L. DIX
proudly refers to Professors and respectable Physicians—many of whom consult him in critical cases, because of his acknowledged skill and reputation, attained through so long experience, practice and observation.
AFFLICTED AND UNFORTUNATE!
be not robbed and add to your sufferings in being deceived by the lying boasts, misrepresentations, false promises and pretensions of
FOREIGN AND NATIVE QUACKS,
who know little of the nature and character of Special Diseases, and LESS as to their cure. Some exhibit forged Diplomas of Institutions or Colleges which never existed in any part of the world; others exhibit Diplomas of the Dead, how obtained, unknown; not only assuming and advertising in names of those inserted in the Diplomas, but to further their imposition assume names of other most celebrated Physicians long since dead. Neither be deceived by
QUACK NOSTRUM MAKERS,
through false certificates and references, and recommendations of their medicines BY THE DEAD, who cannot expose or contradict them; or who, besides, to further their imposition, copy from Medical books much that is written of the qualities and effects of different herbs and plants, and ascribe all the same to their Pills, Extracts, Specifics, &c., most of which, if not all, contain Mercury, because of the ancient belief of its "curing everything," but now known to "kill more than it cures," and those not killed, constitutionally injured for life.
IGNORANCE OF QUACK DOCTORS AND NOSTRUM MAKERS.
Through the ignorance of the Quack Doctor, knowing no other remedy, he relies upon MERCURY, and gives it to all his patients in Pills, Drops, &c., so the Nostrum Maker, equally ignorant, adds to his so-called Extracts, Specific, Antidote, &c., both relying upon its effects in curing a few in a hundred, it is trumpeted in various ways throughout the land; but, ALAS! nothing is said of the balance; some of whom die, others grow worse, and are left to linger and suffer for months or years until relieved or cured, if possible, by competent physicians.
BUT ALL QUACKS ARE NOT IGNORANT.
Notwithstanding the foregoing facts are known to some Quack Doctors and Nostrum Makers, yet, regardless of the life and health of others, there are those among them who will perjure themselves, contradicting giving mercury to their patients or that it is contained in their Nostrums, so that the "usual fee" may be obtained for professedly curing, or "the dollar" or "fraction of it" may be obtained for the Nostrum. It is thus that many are deceived also, and uselessly spend large amounts for experiments with quackery.
DR. L. DIX'S
charges are very moderate. Communications sacredly confidential, and all may rely on him with the strictest secrecy and confidence, whatever may be the disease, condition or situation of any one, married or single.

NEWPORT DAILY NEWS.

FRIDAY, Sept. 8, 1871.

Morning News.

The cholera is disappearing from Prussia and less anxiety is felt throughout Europe.

Above thirty thousand people were present at the New England fair at Lowell, yesterday.

The irrepressible Butler is still on his travels. Last night he spoke at Salem, and as usual had a full house.

The Inquest upon the disaster at Revere closed, yesterday, and there can be but little doubt in the minds of those who have read the testimony, but that the Eastern Railroad Company is more to blame for that terrible catastrophe, than any of its underlings.

Judge Barnard of the supreme court, yesterday, granted the injunction against Mayor Hall, Comptroller Connolly and others, which was asked for by John Foley. His action elicits more commendation than he has received for years before.

In an interview with the friends of Gov. Warmouth of Louisiana, at Long Branch, on Tuesday, President Grant stated positively that he did not advise or authorize the Federal office holders to obtain troops to guard the Republican State Convention.

The California Election.

The first gun of the fall campaign has been fired, and its echo has reverberated from the Pacific to the Atlantic coast.—California, for the last four years under the rule of a democratic governor, has at last redeemed herself and elected a republican to the Chair of State by a handsome majority. California politics are very uncertain affairs and hence before the election there was much doubt as to the result. The most sanguine hardly dared hope for a republican victory. But the battle has been fought and the victory won. Booth, the republican candidate, has been elected Governor by at least four thousand majority. The legislature is republican, which will insure the election of a republican Senator in place of Senator Cole; and of the three Representatives to Congress two at least are republicans, a gain of one. This will do for a beginning. Let the other States, whose elections are to follow, go and do likewise.

The Redmen.

The Boston Journal says that from a late number of a Dakota paper we have advices respecting our old Indian friends, Red Cloud and Spotted Tail. The former has been deposed, and Sitting Bull reigns in his stead. Red Cloud was thought to have seen too much in Washington, and consequently he lost his prestige with his tribe, particularly with the fighting men, who prefer Sitting Bull, now chief of 1000 lodges of Sioux, liable to make trouble with the whites.—Spotted Tail is acting badly. He recently objected to an army officers, setting up a saw mill, and finished the controversy by firing three bullets into the boiler, which arrested the saw mill enterprise. General Hancock has ordered an escort of six companies, with an artillery detachment, all under command of Gen. Whistler, for the protection of a surveying party of the Northern Pacific Railroad from Fort Rice to the Yellowstone River. The editor thinks that if this surveying party starts it will require at least 5000 more troops in the upper country to preserve order and keep communication open with the States.

Gen. Hoffman of New York, who erstwhile seemed the "coming man" of the democracy, appears to have been laid upon the shelf since the Orange riot, as one entirely unavailable for the presidential nomination. Even The World accepts this conclusion for its favorite, and is looking elsewhere for its future standard bearer. From the fact that it has recently taken occasion to speak a good word for Chief Justice Chase, declaring him "still young enough for a long career of public usefulness," the suspicion is not unwarranted that its preference, along with other new departure democrats, lies in that direction. It looks now very much as though that Chief Justice has the inside track on the democratic nominating course, and that he must win if any new departure man is allowed to do so.

Mr. James Anthony Froude, who expects soon to visit this country, is now among the eldest of living historians. He is in his fifty third year, but full of vigorous life and activity. His father was archdeacon in the Church of England. His first published writings were several of the "Lives of the English Saints," issued in 1844, in 14 volumes. Froude drifted into rationalism before he was thirty, and in 1848 printed his "Nemesis of Faith," a powerful contribution to the literature of doubt, which established the author's reputation. He abandoned all idea of the pulpit, and, after contributing numerous articles to the reviews, he issued, in 1856, the first part of his "History of England" under the Tudors.

The people of Lynn, Mass., held an indignation meeting on Tuesday evening, on the subject of the Revere disaster. Ex-Congressman John B. Alley made a strong speech denouncing the "negligence and parsimony" of the managers of the Eastern railroad, which he considered the prime cause of the disaster. A long series of resolutions was adopted, setting forth that the accident has demonstrated the necessity for a radical change in the present railroad system, and it is therefore demanded that no desire for dividends or profits shall be permitted to prevent the immediate use of the Eastern railroad of the best appliance of modern invention for stopping and controlling trains, or for the transmission of information between trains and stations.

At the great anti-Tammany meeting in New York, the Hon. R. B. Roosevelt, a democratic congressman from one of the city districts, said that he had been informed that the new court house had already cost twelve million dollars, instead of from three million dollars to five million dollars as represented. But he charged Tammany with worse frauds than this. "They have stolen our ballots," he said "they have falsified the will of the people, and have pulled away the very keystone of the arch of liberty." These words are not from republican lips, be it remembered, but from a prominent democrat. After such an utterance, is it to be wondered at that a democratic club in New York met and voted that Mr. Roosevelt had betrayed his constituents?

Personal.

Twelve Democratic papers in Illinois and three in Nevada have nominated Thomas Hendricks for the Presidency.

Rev. Henry Ward Beecher has returned home from the White Mountains in greatly improved health.

Gen. John A. Dix is the recipient of a monthly pension of $8, for services rendered in the war of 1812.

Mr. Samuel Bowles of the Springfield Republican arrived home from Europe Tuesday.

A natural son of Aaron Burr is living in Miami County, Ohio, at the age of seventy.

The Rothschild family is about to have a grand centenary celebration in Frankfort; It was in that city that old Madame Rothschild lived.

It is said that the health of John Bright justifies the hope that he will be able to return to his Parliamentary duties next session completely restored to mental and physical vigor

When Washington took command of the American army at Cambridge, he came all the way from Virginia on horseback.

It is stated that Mr. Sampson reports that his Chinese shoemakers, at North Adams have saved him $40,000 in the year he has given to experiment in the Celestial labor.

Summer Gossip.

The Congress Hall dining-room, at Saratoga, contains sixty tables, seating seven hundred and twenty persons.

Some of the rich residents of Saratoga are talking of buying out Morrissey's Club Room, in the interest of Morals, and dedicating the building to a Free Library, in the interest of Mind!

The name of General McClellan is again mentioned in connection with the Democratic candidacy for President in 1872.

The republicans of Hancock county, Maine, cannot be accused of lack of appreciation of the men who donned the blue during the "late unpleasantness," inasmuch as they have recently nominated a former Lieutenant-Colonel of the 11th Maine for Sheriff, Robert F. Campbell; a Lieutenant Colonel of the 23th Maine for State Senator, W. E. Hadlock; and a former Colonel of the 16th Maine and Brevet Brigadier General, Charles W. Tilden, for County Treasurer.

It seems, says the Washington Republican, that Col. McCook, the Democratic candidate for Governor in Ohio, is seriously ill, so that all the jesting about him in the newspapers is exceedingly ill-timed, if not cruel. He started in the campaign in the beginning of the hot season, and labored under a severe physical disability at the time. He suffers from something in the nature of vertigo.

About Home.

Members of Engine Co. No. 5 are requested to give attention to the notice elsewhere.

The friends of Mrs. I. W. H. Marsh will observe the notice announcing the reopening of the school.

J. W. Langley Jr., advertises good flour at a very low price. Consumers should be thankful.

Mr. Buffum of Middletown has ten pens of sheep, not ten pairs as the compositor made it yesterday, at the New England Fair.

A milk carrier near ten years old is about town these fine mornings with a big pipe in his mouth. It is a pity that a lad so fine looking should be allowed to disgrace himself and his parents in this way.

These cool nights are rather hard on the hotels. A large number of the guests have gone, but others continue to come and take their places. Most of the occupants of cottages will remain through the present month. One family, only, has left, as yet.

Mr. Eugene Sturtevant is opening a fine avenue sixty feet wide along the shore from Sachuest Point to Black Point. It will be one of the finest drives on the island, extending about three miles. Accommodations for boarders are greatly needed in that locality.

Mr. A. S. Hatch's new yacht Resolute returned here yesterday afternoon, having made a very pleasant trip to the eastward.

Travel on the Wickford road is still good, many of our summer visitors chosing that way to return home, in preference to a ride around Point Judith.

Persons connected with the public schools will be interested in the notice of the Superintendent.

The New England Fair.—The first and second premiums for Southdown ewes, three years old, have been awarded to E. A. Sisson esq., of South Portsmouth.

Aurora Borealis.—There was a magnificent display of nature's fireworks last evening. The exhibition commenced early in the evening but the culminating point was not reached till after midnight when the whole heavens were lighted almost to the brilliancy of a full moon. Those sound sleepers are little aware of the beautiful sights prepared for them without cost.

Ashore.—Bark Estell Day, of Milton Del., loaded with coal, went ashore on Beaver Tail, Wednesday night. She sprang a leak immediately after and there was great danger of her going to pieces.—Wreckers from here are now at work upon her. The coal will be taken out and the vessel towed to this city. She is for Providence, and has on board three hundred and thirty five tons of coal.

In the evening they will give a concert at the Opera house assisted by several prima donnas and others of distinguished note.

Whereas: It has pleased Almighty God, to remove from us by death, our beloved brother, Benjamin M. Anthony, therefore;

Resolved: That in this the first removal by death, of one of our members, we realize the great truth that we are all mortal, and also the importance of being ready to meet the summons when it shall come for us, to depart hence to be here no more.

Resolved: That in the death of our brother, we lose a faithful member and an earnest and consistant laborer in the great cause, for the promotion of which we are banded together.

Resolved: That we tender to the afflicted family and friends of the deceased, our heartfelt sympathies, commending them to the God of the widow and the fatherless.

Resolved: That as a token of respect for our departed brother we will attend his funeral in a body, and wear the usual badge of mourning.

Resolved: That our W. R. be instructed to forward a copy of these resolutions to the family of our deceased brother; and also procure their publication in the city papers.

The Narragansett Association.

SECOND DAY.

Pursuant to adjournment the Association reassembled at 9 o'clock. Immediately subsequent to the correction of the roll of membership and the transaction of other important business, it was voted, upon recommendation of the appropriate committee, that the next session be held with the Church at Wickford; that Rev. J. W. Carpenter be preacher; that Rev. I. M. Church be his alternate, and Rev. C.E. Barrows prepare the Circular Letter.

Rev. J. B. Maryott presented an historical sketch of the New Shoreham Church which indicated extended and unwearied research. It appears that upon the original settlement of the island, one sixteenth—an equal portion—was set apart for the support of ministers. The first papers found regarding a church are under date of Oct. 21, 1765. The earliest pastor of whom there is a definite knowledge, is Rev. David Sprague, settled in 1762. The first regular salary was voted in 1844, during the pastorate of Rev. J. P. Burbank. Four houses of worship have served the church at various periods, the present edifice having been erected in 1857.

Rev. A. P. Graves, Evangelist, now laboring at Wakefield, preached a revival sermon from the words: 'The blood of Jesus Christ, His son, cleanses us from all sin.'

The customary thank offering was tendered the Perryville Church for their liberal hospitality and cordial welcome.

After a brief valedictory address, prayer and benediction by the Moderator, an adjournment was effected at half past twelve. Another bountiful repast awaited the guests at yesterday's table, and well prepared them for a ride as indeterminate in length as any ever taken south of Mason and Dixon. At Kingston station there was a general separation, and all the associations of the Anniversary abruptly terminated.

Wickford.

A correspondent writes, one of Wagner's elegant drawing room cars has been placed upon the Wickford Branch Railroad and left the Eolus landing for New York, for the first time Wednesday, with a full load of passengers. The company's receipts for the month of August amounted to over $9,000 and the prospects are that September's receipts will exceed that amount. It is surprising and gratifying to see with what rapid strides this line is gaining in popularity; each day witnesses an increase in the travel, while conductor Isaac Niles, formerly of Providence, who has had nine years' experience in the business, has proved himself to be fully equal to the duties which weigh upon him.

Literary Notices.

Behind the Bars is a volume published by Leo & Shepard, in which is discussed in an able manner the best methods of treating the diversified cases of insane patients, a subject which though much discussed, is by no means exhausted, and one which needs all the light which most thorough investigation can throw upon it. The volume differs in its manner of treating the subject from any that has heretofore been published, and we predict that it will be carefully and thoroughly read by all who are interested in the cure of this unfortunate class of our citizens. The name of its author is not given. For sale by C. E. Hammet jr.

The Sword and Garment is the title of a work by Rev. L. T. Townsend, Professor in the Boston Theological Seminary. It was originally prepared as a discourse upon ministerial education, with the hope of inducing young men having the ministry in view to avail themselves of a thorough professional training before engaging exclusively in their work. It is full of the most valuable suggestions, set forth with great plainness and force, and ought to be in the hands of every young man looking toward the ministry as his profession. We are sure that if it were carefully studied by this class of men, and its advice followed, the power on the pulpit in the next few years would be very much increased. For sale by C. E. Hammett jr.

Eastern Coast Guide.—This book, published by Edson C. Eastman, Concord, N. H., is a guide to all the places of interest along our Eastern Coast from Newport to Mount Desert. It devotes one chapter to a description of our own unrivelled resort, and its statements are quite correct. A large map of New England accompanies the guide, besides a map of the Cape Cod railroad and its connections.

This is a book of great value to the tourist, and will be found not without interest to those who wish to gain an acquaintance with our lovely Eastern shores. For sale by C. E. Hammett, jr.

A Washington dispatch says the best information from the South in relation to the cotton crop is that the yield this year will fall far short of that of 1870, owing, in the first place, and mainly, to the decreased area of land planted in cotton, and in the second, to an unfavorable season. The cotton factors of Augusta, Georgia, have estimated that the present crop will not exceed 3,274,000 bales. This estimate was not made hurriedly, but after a thorough investigation, and represents the concurrent opinion of thirty-two gentlemen engaged in the business. It is therefore entitled to as much credence as any estimate yet made.

The cholera epidemic in the Baltic provinces of Prussia begins to abate. There has been out of the fatal case at Stettin, and at Dantzic the disease has been pronounced sporadic. The few cases of cholera that have occurred at Paris and in this city are now said to have been of a different type from the Asiatic scourge. The anxiety which was felt at Berlin and throughout Germany is decreasing, and it is confidently hoped that the precautions taken, aided by the approach of cold weather, will stay the progress of the epidemic.

Republican Nomination in New Jersey.

TRENTON, Sep. 7.

The Republican State Convention, today, nominated Cornelius Walsh for governor, on the second ballot.

Sale of Telegraph Line.

BALTIMORE, Sep. 7.

The bankers and brokers between New York and Washington, with all its effects including wires, poles, offices, instruments, &c. was sold in this city, yesterday, by the trustees, for $10,000, to John Howard Wells.—There are five wires between New York and three between Philadelphia and Washington.

An Ocean Race.

New York to San Francisco.

SAN FRANCISCO, Cal., Sept. 7.

The ship Frolic, 105 days from New York, arrived at this port, today. The ships Frolic and Ringleader left New York on the same day, and many bets were made as to which of them would make the fastest time to this port. The race was won by the Ringleader, she having arrived here on the 10th of August.

The California Election.

Republican Victory Confirmed.

SAN FRANCISCO, Cal., Sept. 7.

The San Francisco State Central Committee announces that the Republicans have carried the State for Governor by a majority of 6000, and that the Democrats concede a majority of 3000. San Francisco gives 500, and Sacramento City from 500 to 700 majority.

SECOND DISPATCH.

The returns now show that Booth (Rep.) for Governor will be elected by about four thousand majority. In the Legislature the Republicans will have a majority. San Francisco sends an entire Republican legislative delegation. The majority in this city increases as the count progresses. It is now conceded by the Democrats that Sargent (Rep.) from the Second District, and Coghlan (Rep.) from the Third district—both for Congress—will be elected.

This is to certify, that for the past two years I have used Barlow's Lotion, prepared by W. K. Reynolds, and cheerfully bear witness to its great efficacy in relieving pains, such as Rheumatism, Neuralgia, Bruises, Cuts and Burns. I have also used it largely among my shop-mates and their families, and know of no failure where it has been faithfully used. For spasms, stiff sinews, and injuries to which mechanics are liable, it has no superior. In cases of frost-bites and chilblains it works like magic.

THOMAS PARKER,
Liquid Street, Providence, Dec 26, 1867.

Still Onward and Upward.

The extraordinary increase that has taken place in the sale of Hostetter's Stomach Bitters during the past year, is another proof that an intelligent people, although they may try all things, hold fast only to that which is good. No amount of puffery can lift inferior articles to the position of standard specifics. To use the words of Tom Paine, they may go up like a rocket, but are sure to come down ignominiously like its extinguished stick. Hundreds of such nostrums have gone up and come down since the introduction of Hostetter's Stomach Bitters, nearly the fifth of a century ago. Yet it still remains the supreme tonic of the age. It has not, and never has had a rival in efficacy or popularity, and now stands at the head of all proprietary remedies manufactured on this side of the Atlantic. In every civilized community on this continent, or in South America, it is the accepted remedy for dyspepsia, bilious complaints, constipation, general debility, nervous weakness, and many other unpleasant or dangerous maladies. A medicine so widely extended in its course pirated and imitated by dealers without conscience or integrity.

Therefore, let every man and woman who designs to purchase the genuine Hostetter's Stomach Bitters, see to it that they have what they pa for, and not the results of an infamous imposture. Look carefully at label, stamp, and name blown in the glass and do not forget that the *true bitters* is sold in bottles only.

The funeral will take place from the First Baptist Church tomorrow, (Thursday) at 2 o'clock.

PROVIDENCE, R. I., Feb. 11, 1870.

I have used "Dr. Bullock's Nephreticum" for several months past for a disease of the Kidneys and Bladder of ten years standing. During all that long and gloomy period I suffered at times attacks of the most excruciating pains and tried all kinds of medicines and many eminent physicians, with little relief at times, yet with no permanent, lasting benefit. At last I was induced to try "Nephreticum," and after continuing its use for a considerable period of time, I began to be benefited, and now I feel satisfied that I have obtained permanent, and, I trust, lasting relief. I still take "Nephreticum" and give to my friends. For a year past I have had no severe attacks of disease. I feel it has given me a new lease of life, and I most cheerfully and confidently recommend "Nephreticum" as a reliable, safe and sure remedy for diseases of the Bladder and Kidneys.

NEWPORT DAILY NEWS

The Weather in Mars.

The planet Mars has recently been the object of unusually careful inspection by English astronomers, and some curious results have been reached. The oceans are easily distinguished from the continents, the former generally wearing a green blue tint and the land a well marked red hue. Over these pass clouds at times, or what the observers consider to be such whenever they see a whitish light gradually replacing these ordinary colors. On a recent occasion, comparing the observations of two astronomers, it was found that a certain well known sea was partially concealed from view by a great cloud-mass spreading over many thousand miles of the Martial surface. But as the hours passed the clouds seemed to be melting away, whether by the sun's heat or because they had fallen in rain was, of course, not determinable, until the shore that had been concealed was wholly restored to view. Referring these phenomena to the day of the planet, it was ascertained that the clouds had come up in the early forenoon and passed off about noon. It would seem that, as a rule, the Martial mornings and evenings are misty, and that, as with us, winter is more cloudy than summer.

HAIR TEA.

A lady writes: "About six months ago my hair was coming out so badly that at every dressing I used to get a handful, which, not wishing to throw away, I laid by in a box. I have two bottles of your Hair Tea, and now I do not get enough to tie the ends of my braids, and have to go the box for a few hairs for that purpose. I think every lady ought to know what a remarkable Hair Preserve you make."

Dr. Kennedy's Hair Tea, a complete Toilet Article to beautify and invigorate the hair, is sold by Druggists everywhere at one per bottle.

THE

THE NOVELTY CLOTHES WRINGER.

Nothing, except the Sewing Machine, has ever been invented which so much relieves the labor of the household as the Wringer. But its usefulness does not end here. The saving of clothing is of much greater importance. It is often remarked that articles of fine texture, last twice as long when *wrung* in a Wringer as when wrung by hand. The NOVELTY has Cog-wheels on both ends. * * The rolls are allowed to separate freely at either end.— These, besides other advantages which it contains, seem to be indispensable to a practical wringer. *New York Independent.*

The Novelty Wringer.—Has become an indispensable institution in thousands of families.— And we believe its great and increasing popularity is fully merited—for the Novelty evidently possesses all the requisites of a first-class, practical machine. Indeed, after using one for many months in our own family, we are prepared to indorse the Novelty as unsurpassed (the laundress says *unequaled*,) by any of the several wringers previously tried.—*Moore's Rural New Yorker.*
